

Name: Maayke Broeksma  
Age: 25  
Field of studies: Psychology

### **Who are you?**

My name is Maayke Broeksma and I am from the Netherlands. I moved to Sweden for my master's degree in psychology in 2017 and have always been active at Sydsåkanska since then.

### **What have you done at the nation?**

After working many events as an active member during my first semester, I became a foreman and since 2018 I have worked at Sydsåkanska as a head waiter, sexmästare, and head marshal, and I also hosted a new bar concept from scratch a couple of times.

### **Why are you applying for Seniors?**

I would like to work as a Senior in this nation's Övre Styret to help work on the long-term well-being of this nation's community. After having planned Knävlingagillet, which was a six-month project, I would like to keep the ball rolling and continue working on more long-term projects, and continue working with the Quratel.

### **What do you want to do as Senior?**

What I would like to focus on as a Senior is to work on internal communication, such as creating clearer feedback channels and making the Seniors' group more approachable. The profile and the organisational values form the foundation of everything you do; both in organising activities such as booking bands, but also in how you handle conflict.

### **Why should the nations meeting elect you?**

I have worked for both regular events and for events that only occur once per year, and I have worked closely together with the quratel on for instance the ball. This led me to have a good idea of how the foreman group works and how the activities work on a long-term scale. I have seen the nation go through several changes in the past couple of years and I've seen some things work out well, but other things could be developed. I always try and see opportunities in how the events I am responsible for and how my own work can be improved. This is a trait I will be carrying over into the projects I will be doing for the Seniors' group in the case that I am elected.
