

Snabbpresentation

Name: Kristoffer Bengtsson

Age: 25

Fields of studies: History, Classical Languages: Latin

Quratelspost: ProQurator Social

Fun fact about me: 2:nd Dan (Second degree black belt) in Shotokan Karate.

Who are you?

I am a jolly and positive fella' from Trelleborg in southern Scania. Certified electrician who have studied history for 2 years, and is now studying Classical languages: Latin at the institute of language and litterature. I am a socially outgoing person who enjoys meeting, and get to know, new people. Which was a big reason why I got involved in the nation and, later, also move to the nation house. I'm gladly physically active, both by going to the gym, and exercising karate, but also pursueing other martial arts. I am a very inquisitive person, and I seek understading in everything.

Vad vill du göra på den posten du sökt?

I wish to, with the help of the experience I hold, make Sydskånska Nationen as good as it possibly can. Uppermost I wish to work with the activities we have at the moment and to make sure that our activites are of the uttermost quality. I also wish to strive to make our "Förmannakår" have the highest feeling of fellowship we can achieve. I aslo want to be able to cement the PQS' role within the Quratel during the mandate period, aswell as discovering new possibilities for what a PQS can do. Mostly, I wish to drive Sydskånska Nationen forward, with the knowledge and experience I possess.

Varför ska nationsmötet välja dig?

The meeting should appoint me as the PQS because I am very well suited as the nations PQS, partly because of my dedication and drive, but also for my practical skills, and my social capacity does well with the post. I deem myself have good knowledge about our activities and how the work, along with the nation. My good properties of a leader, which acquiring during my role as an instructor in karate, plus my work as a history teacher, will contribute in a very good way to the Köks- and Sexmästeri. I have learnt alot about project planing from my work as an electrician and how one disposes of ones time when it come to deadlines et cetera.

Curate, ut valeatis.
