

FREDRIK ANDERSSON

Who are you?

My name is Fredrik Andersson and I'm 29 years old. I graduated from law school in 2012 and today I'm working at a law firm in Kristianstad. I work with cases regarding family law, criminal law, migration law and other cases in administrative court. Even though I work in Kristianstad I still live in Lund.

What have you done in the nation?

I started in 2008 as bar manager at Svartklubben and the two following semesters I worked as förman at the club. After I began to understand Sydskånskas significance for me, I ran for PQ and was elected to that post for the period autumn-spring 09/10 and it's a year I will never forget. After my year as PQ, I was elected to Seniors for four more semesters. During this period, I had assignments as flagbearer and represented the nation at AFÖS.

Why did you apply for the assignment?

During a conversation with a friend I learned that the nation was looking for a new Proinspector and that this time they were considering the applicants outside of the university. Over the years, the nation has given me so much joy, friendship and opportunity to develop as a person which is why I want to give something back by offering my knowledge and experience. Hopefully, my experience and position outside of the university is what the nation is looking for.

In which case will you be a resource for the nation?

Having already an in-depth knowledge of the nation and its organization combined with my work experience, I believe my knowledge may be of help to the nation in contexts regarding cases concerning municipalities and other authorities.
