VT17 Head marshal, election committee

HT17 Seniors (half semester),

Head marshal for the ProInspector ball

VT18 Lunchforeman

HT18 Novischforeman, Vierforeman

Who are you?

On the paper smålänning, in the heart sydsåning. Get energy from social interactions which I then preferable waist at the dancefloor at Sydsånska, at Gerdahallen or in Lunds so called nature. Love dressing up in costumes and just as much dressing others. I want to have all the strings in the world at my bow but have after finding myself in a desert in Portugal this summer become better at relaxing and have even started with yoga.

Why are you applying for Qurator?

I have since my first day had a big interest for and thoughts about how the nation should be and function and how the Quratel should work. I consider myself being good at and love organizing and lead others and being the one that have the overall responsibility and make sure nothing is forgotten. First and foremost there is nothing that have meant so much for me as Sydsånska Nationen and nothing that would make me more thankful then getting the chance to run and develop the nation for a year.

What would you like to do as Qurator?

Work with our working environment by looking at the structure of both Quratel- and foremanpositions to see if we can decrease the work load for the Quratel and in the meantime increase the responsibility for foremen and by that raise their motivation. The goal is to start a process to take away the halftime positions. I want to work for a full time houseforeman since I think it's impossible to get a new nation house built without that recourse. I want to work for a quicker process around quitting and starting activities which should go hand in hand with the market but mostly what interests and ambitions that our foremen have. I want to arrange a Torna-day where foremen from the different nations can meet and have fun together. It would also be very fun to continue the work with a developed Skvalborg concept.

Why should the nation meeting elect you?

I have during my four years gathered a lot of experience. Not only trough my positions, but also trough my big interest and commitment to the nation. I have been present at the majority of activities since I came and I've always been updated about what's going on inside and outside our walls. If you elect me you get an experienced and stable Qurator. You also get a Qurator full of energy to realize mine but mostly your ideas. You get a Qurator who can work professionally but still is a child at heart and want to work for that we always remember our purpose – to offer a place where active members and guests can have fun and feel good.
