

Name: Alice Holster

Age: 22 år, 23 i Januari

Studies: Kinesiska kandidat denna terminen, sociologi förhoppningsvis nästa /

Who are you?

Hello, I am Alice, a bachelor student in my fourth year. I am studying Chinese with a minor in sociology and dream of getting work where I can socialise and travel the world. I recently came back from an exchange in Australia, where I met a lot of people from all over the world. After returning I immediately became a mentor for LU international students while also being international secretary for the Noviceriet. So as you can see, I am a very social person who loves to learn about cultures and help others. For fun I enjoy working out as well and go on hikes in nature with my sister's dog. I have also been active at the nation for a long time, enjoying it for at least 3 years, and hope to be here for another year.

What have you done at the nation?

I have been a member and a formen of Sydsåkanska nation for quite a while now. I started as a lunch formen and enjoyed it so much I did it for two years. Afterwards I became the Teknikmästare for a semester before finally becoming International secretary. Besides these posts at the nation, I have been a mentor nearly every semester since I became active in Sydsåkanska, and I have also helped out at the SAF and other similar events. I am at the moment a fanbärare for the nation.

Why are you applying for the Quratel?

I am applying for Quratel, more specifically Notarie since I have experienced some of the fun work you get to do with this post, such as the Hålsigagilet and SAF, as well as the Noviscery which was an amazing experience. I understand that being a Notarie means more strenuous and serious tasks such as large events, however I find these interesting and think I am more than up to the task.

Another reason I am applying to this position is the community here at sydsåkanska. Sydsåkanska nation is a space I feel is very accepting and welcoming, and I always get a smile on my lips while entering the building. This place has shown me so much love, and now I want to give back some of the love I have received when being here. I want to be a bigger part of the community and help it grow while keeping this a welcoming and accepting space. I think my positive and energetic mindset will help me achieve this goal. Furthermore I want to have a similar position in my future work, a position where I can represent and bring a community together.

What do you want to do as a Quratelare?

As a Quraterare I want to work for the nation to keep it as accepting and inclusive as it already is. One example of this is making the novisch week fun and accessible for everyone who enjoys this space. After being in the Noviscery, I have gotten a lot of tips and ideas to make the planning go smoothly. I will also strive to make communication easier between the Noviscery and Quratel. I think my talkative personality can help in this regard. I also aim to expand upon the natu utskott, since I think that is something the

nation can benefit from, as it gives people the option to do new activities such as hiking, knitting and so on. I also want to keep cleaning up the drive, to help keep it clean and easy to search.

Why Should the nation meeting elect you?

An important and hard question to answer. I think one reason to elect me is that I know the nation quite well, I know the building's nooks and crannies, and how events are held and planned. I also take work quite seriously, especially when I know what to do. The knowledge I have about the nation would be one good reason to elect me.

I have also been a leader in spaces outside Sydsånska nation such as at Tacobar and restaurant China wall, where after just a month I got promoted to manage the other waitresses. This was the case at the farm as well, I quickly got the position to look after the other workers so everything went smoothly even though they were friends, and have experience in work cultures where the older men usually have the authority. So having authority while being a friend's boss is nothing new to me.

I also worked as a volunteer in a school in China, where I was very quickly seen as a person the students could come to and talk to about life and studies, among other things. So I like to think I am a reliable person who people feel safe to talk to, both for the people over and under my position.

Why should one actually elect me?

The real reason you should elect me is because I am very funny and will make Expen more lively. But besides that and my knowledge of work and the nation, I am very welcoming and think it is important to have a reliable person to go to. I love when communication is going well and try to be as clear as possible what my exceptions are, which I think will be a good thing for the utskott the Notarie takes care of. I am also very straight forward when I need to be.

This is it for me, I hope you like this reading and see you at the meeting!
